

REMARKS/ARGUMENTS

It is respectfully submitted that the detailed description of the invention clearly and acceptably distinguish over the prior art, since it is clear that Fig. 3.B. is newly written.

In view of these considerations, it is respectfully submitted that the cancelled detailed description of the invention should be considered as no longer acceptable with respect to the new Fig. 3. B. The new Fig. 3. B should be considered as clearly distinguishing over the art and should be slowed.
